

OFFSHORE AND SUBSEA SOLUTIONS SINCE 1977. MADE IN THE USA.

BUILT FOR THE HARSHTEST ENVIRONMENTS ON EARTH

Houston Anodes has protected deepwater platforms, subsea structures, and offshore wind foundations since 1977. Zero product failures in 50 years. We design, manufacture, and deliver high-quality aluminum and zinc sacrificial anodes using electromagnetic induction technology, producing anodes that last up to 40% longer than conventional alternatives.

RIGHT SPECS

Proprietary alloys engineered for seawater performance

- ✓ Low-iron, high purity aluminum
- ✓ NACE, DNV, Norsok compliant
- ✓ Zero porosity, perfect density
- ✓ 40% longer service life

RIGHT WEIGHT

Structural protection from 5 lbs to 1,250 lbs standard.

- ✓ Platform anodes
- ✓ Bracelet anodes
- ✓ Custom subsea
- ✓ Wind turbine foundations

RIGHT FIT

Configurations for new builds and retrofits.

- ✓ 90°, 45°, straight core platforms
- ✓ Square and tapered bracelets
- ✓ Weld-on and bolt-on
- ✓ Any geometry to exact spec

Delivered to ExxonMobil, Shell, BP, Chevron, PEMEX, TechnipFMC, Subsea 7, J. Ray McDermott, Ørsted, Oceaneering, and the U.S. Navy. 80% of PEMEX anodes for 35+ years. Approved FMC Global Supplier.

PLATFORM ANODES

AL ZN

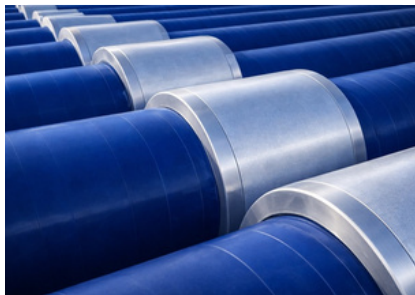

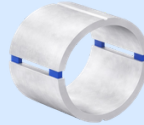

- 90° / 45°
- Offshore
- Structural
- Jacket

BRACELET ANODES

AL ZN

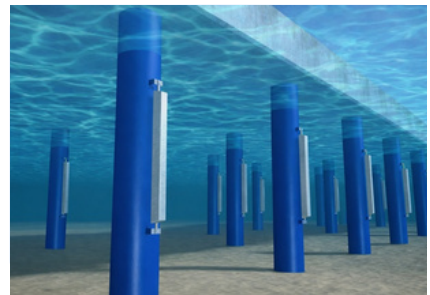

- 10" - 30"
- Offshore
- Subsea
- Pipeline

TRAPEZOIDAL ANODES

AL ZN

- Piers
- Pilings
- Infrastructure
- Marine

Houston Anodes

- 2 to 8 week lead time
- ISO 17025 tested every batch
- 100% homogeneous alloy
- 100% made in the USA
- Any geometry

Anodes Imports

- 4 to 8 months lead time
- Freight and tariff exposure
- Batch inconsistencies
- Variable alloy quality
- Limited custom geometry
